BRIDGE

The Bridge system is a part of our collection of contemporary style workstation and desking systems, ideally suited to the modern open plan office. Bridge is a high-quality system with integrated cable management, and structure designed to give form and function. From stand alone to multi desking options, Bridge can be used to plan out configurations to suit any workstation layout.

Built in is a full cable management system with cable access point via a side port or in desk scallop, allowing for the integration of power and data cabling via a under desk cable management.

WORKTOP

A design feature of Bridge is the floating worktop that gives a feeling of overall lightness and openness. You can choose from a range of contemporary colours and finishes by selecting from a variety of worktop sizes with a choice of laminates or timbers.

Our laminates are hard wearing and resistant to UV light and staining by liquids. The edging is heat bonded and scratch resistant and available in many colours. The substrate of our worktops is manufactured from renewable plantation forests.

ACCESSORIES

Bridge offers a range of accessories from monitor arms to removable white boards and screens. Shelves and trays create extra space and are available in a range of colours and sizes to suit.

LEG STRUCTURE

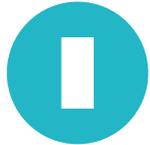

The square leg frame with a raised detailed is available in a standard white durable powder coat finish for a clean fresh look. Alternative Dulux powdercoat colours are available

PERSONAL STORAGE

Personal storage units are available in many shapes and sizes from mobiles, caddies and open shelf units. Choose between a key lock or combination lock. All personal storage units are available in matching or contrasting colours.
