10. our values

11. giving back

Hello,

*Thank you for this opportunity to present Montage Commercial Interiors to you. The below is a brief overview on our company to give you a better understanding of who we are and what we can do for you.*

WHO WE ARE

Montage Commercial Interiors opened in 2001 as suppliers of contract office furniture. We are a team of over 50 staff all working to deliver quality service and products for the commercial fit out industry.

Montage specialises in workstation solutions, over the years we have developed an extensive range of workstation and furniture solutions, as well as our custom acoustic range of soundproof booths, acoustic lounges, wall panelling and screening.

WHAT WE  
STAND FOR

As a company, we cohesively work towards achieving our single end goal - To ensure customer satisfaction by delivering projects within budget, on-time and to the highest quality standards to surpass client's expectations.

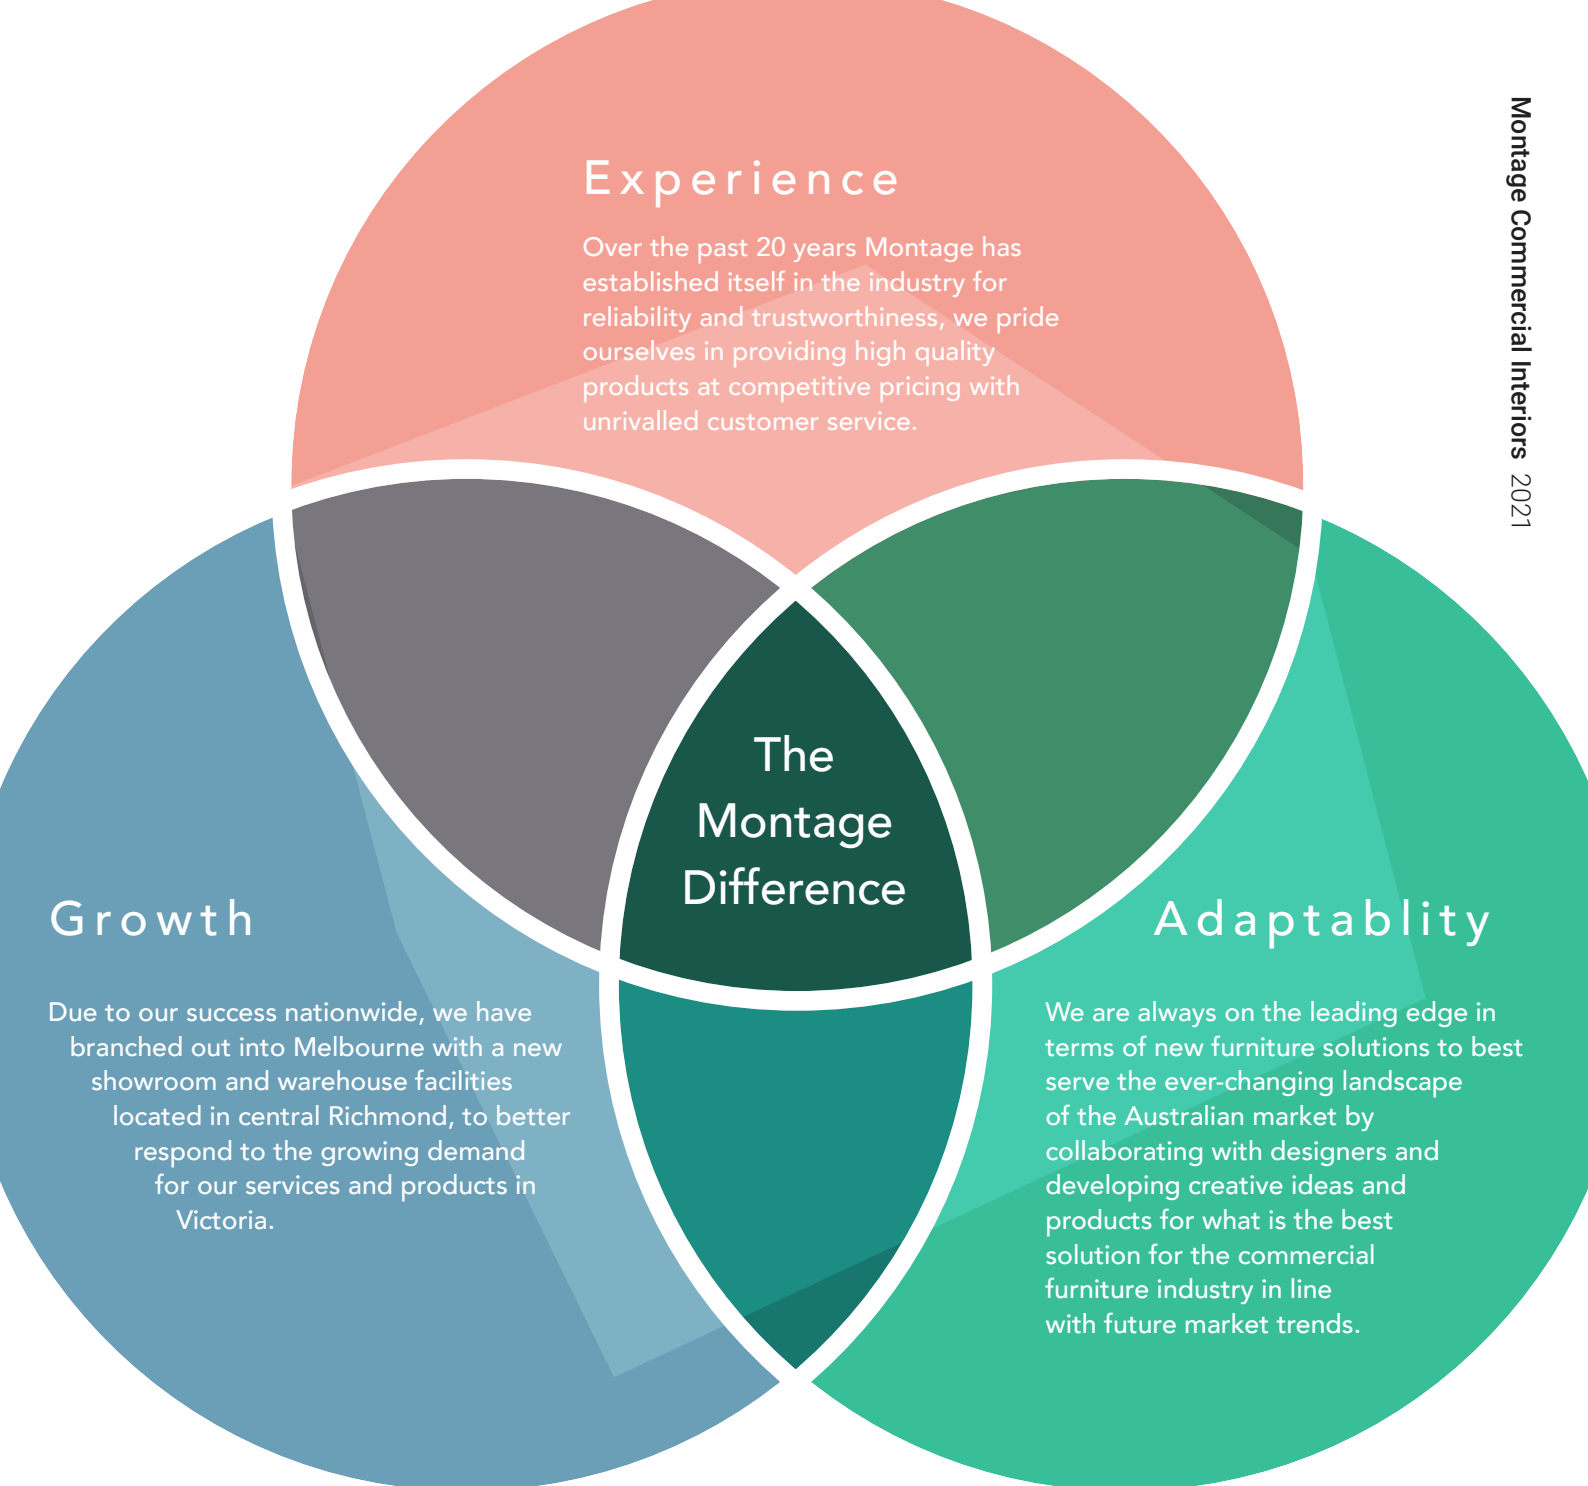

Montage is equipped with its own in-house manufacturing and warehousing in Sydney, providing flexible and quick turn-around times for projects with efficient logistics and installation procedures.

*Once again thank you for this opportunity to get to know us, please don't hesitate to reach out if you require further information, and we look forward to working with you in the near future.*

22 Burrows rd, St Peters, Sydney.

## what makes us unique

Montage has been established for 20 years, allowing us to build ourselves up sustainably, growing our business to include a second showroom in Melbourne. Additionally our model allows us to be service driven whilst being extremely nimble, without compromising on quality, as highlighted by our ISO 9001 certification.

There is no job too big or too small for Montage, we are always prepared to offer the best service, products and solutions working alongside clients from beginning to end with a single minded focus to achieving a successful outcome.

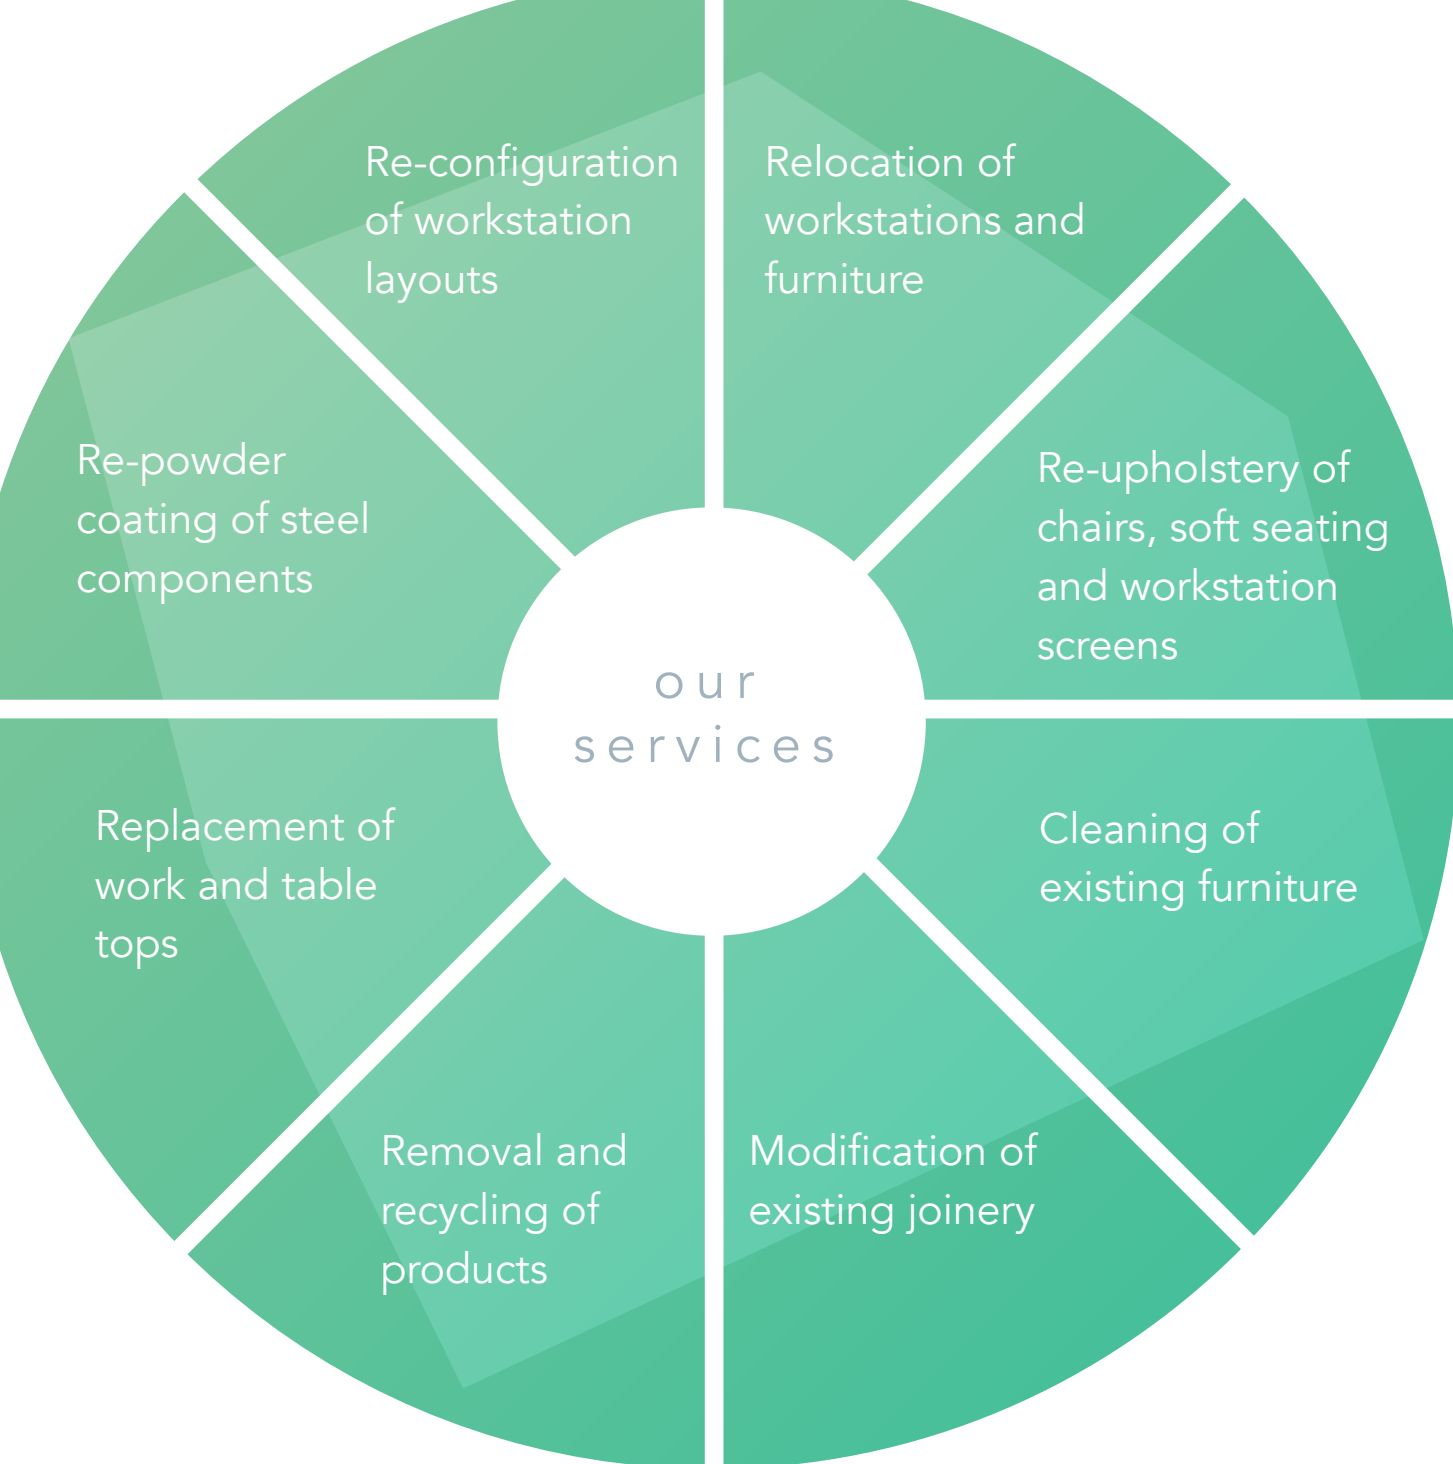

## our custom services

Montage Commercial Interiors provides end to end office interior solutions, from stocked products to custom product and services. Part of our Sydney facility encompasses an inhouse joinery and upholstery division.

Specialising in providing a broad range of commercial joinery, bespoke furniture, custom upholstery, and prototyping. Our highest quality workmanship and service mean you get what you require on-time, within budget and to the standards you expect.

## environmentally sustainable services

Montage Commercial Interiors offers environmentally sustainable services to minimise our impact on the environment. In order to prevent office furniture ending up in landfill at the end of its life cycle, we offer ways for you to reuse and refurbish rather than dispose. In the instances where it can't be reused or refurbished, we will always breakdown and recycle components in an ethical manner. This helps protect the environment and reduce carbon emissions associated with manufacturing new.

Recycled office furniture also helps businesses reduce costs associated with buying new, whilst also ensuring that your business is serious about conservation and waste reduction.

## project experience

### **Spec Suite**

Product supplied - workstations - seating - tables - storage - custom furniture

## our values

1.

To provide a **safe & healthy work environment** where our staff are treated fairly and with respect.

2.

**Open dialogue** is important with our teams, being able to share ideas and solutions to a range of issues and being inclusive of all staff views and opinions.

3.

**Researching and sourcing** new products & technologies to better assist Montage as a group.

4.

**Making it right** is essential for us, if we make a mistake, we will ensure that the issue is resolved immediately and to the client's satisfaction.

5.

As a group we are **committed to supporting each other**, and our objective of always supplying quality products and services to our clients, regardless of the size or constraints of the job.

## giving back

Montage Commercial Interiors has aligned itself with an Australian based charity called HeartPrint who work in Siem Reap, Cambodia building houses, providing clean water, and access to education opportunities.

On an annual work trip in 2017, which took us via Cambodia, we saw firsthand what a difference supporting a charity can make to ordinary people's lives and the ongoing benefits of that. Montage decided to put our financial support behind

Heartprint who are making a big difference in the lives of some of the most impoverished Cambodians.

Our choice of project to support was the "building project" where a house is built for families in need.

Many families are barely surviving on a day-to-day basis and simply don't have the funds to build adequate shelter. These families are living in makeshift houses that provide very little protection, leak during rains and are unsafe for their children.

Most people just need a little helping hand in life and ultimately thrive knowing that people care about them and are willing to contribute. Building a house for a family can give them a sense of pride as well as a good night's sleep reducing illness and injury.

Montage Commercial Interiors is proud to be involved with Heartprint and look forward to many years to come, and many homes to be built. If you would like to see more on what Heartprint do, please check out their website, donate, or sign up to their volunteer program.
