# SHINTO

WORKSTATION SYSTEM

## PRODUCT OVERVIEW

The Shinto system unites the simplicity of Japanese design with modern trends. With its use of natural materials, Shinto has wonderful soft tones and the richness of timber makes it visibly pleasing to the eye.

The Shinto has a variety of uses in the workplace, from managerial offices, to meeting rooms, to inline workstation layouts. The internal metal frame is adjustable to scale up or down to accommodate more users. A great feature for flexibility in an evolving workplace.

## LEG VARIETIES

The Shinto legs are made of Solid European Beechwood timber, and can be stained in a range of colours. Standard colours are natural and black.

### NATURAL

Natural brings out the grain of the wood and has a light finish

### BLACK

The black variant has more of a gloss finish with some texture visible in the light

## ACCESSORIES

A range of accessories from monitor arms to removable white boards and screens can be fitted to the Shinto. Shelves and trays create extra space and are available in a range of colours and sizes to suit.

## WORKTOP

The Shinto offers various work top sizes in a variety of colours and laminates. Our laminates are hard wearing and resistant to staining by liquids and UV light. The edging is a heat bonded and scratch resistant, available in many colours. The substrate of our worktops are manufactured from renewable plantation timber.

## POWER

Access from the cable trays below the work top can be reached via desk scallops, in-desk power and data boxes allowing you to plug in from your desk top or a variety of electrical and data power rails mounted either to the desk top or the underside of the desk top.

## LEG VARIETIES

The legs are made of beechwood timber and a range of finishes are available. Cable trays are matched in the same colour.

Laminate tops which are hard wearing and available in a choice of colours and woodgrain finishes

Customise your furniture with a timber veneer or plywood tops on request

Durable powder coat colours for the legs and frames available in white and black, as well as custom colours on request.

The mechanism tray is extendable in length so the desk structure can be reused if the layout of the work environment changes.

Metal components ensure for strength and long-term durability and in addition can be recycled when the product is no longer required.

Made of Solid European Beechwood timber, and can be stained in a range of colours. Standard colours are natural and black.
