

SPAN

WIDTH-ADJUSTABLE WORKSTATION

EXSPAND

YOUR OFFICE POTENTIAL

Montage Commercial Interiors developed a system to meet the needs of the ever changing and growing office environment. Together with our manufacturing partners a beautifully designed system which incorporates symmetry and function was developed. Every segment of Span perfectly integrates with each other allowing unity and efficiency in a workstation system.

Duo with black powdercoat and timber frame

The Span system derives its name from its unique ability to extend beyond the limitations of conventional workstation systems, through its expandable frame making it easy to construct inline multi desks, group pods or clusters, while still allowing for greater underdeck personal storage and leg space. Span will seamlessly integrate itself into your office space.

Span comes in a durable hard wearing fine textured powder coat giving the frame a modern edge. This system's standard powder coat colours are black or white, or get creative with the option to use a custom colour by "Dulux". For an architectural look the Span frame has the option of a custom timber leg made by our in-house joinery division.

*The frames durable construction comes with a 5 years warranty.

Laminate tops which are hard wearing and available in a choice of colours and woodgrain finishes

Customise your furniture with a timber veneer or plywood tops on request

Optional timber or metal legs available. The metal legs are coated in a fine textured powdercoat available in black or white. Timber legs are finished in a clear lacquer.

Metal components ensure for strength and long-term durability and in addition can be recycled when the product is no longer required.

The support tray is extendable in length so the desk structure can be reused if the layout of the work environment changes.

Cable trays come with covers and end end caps if required.
